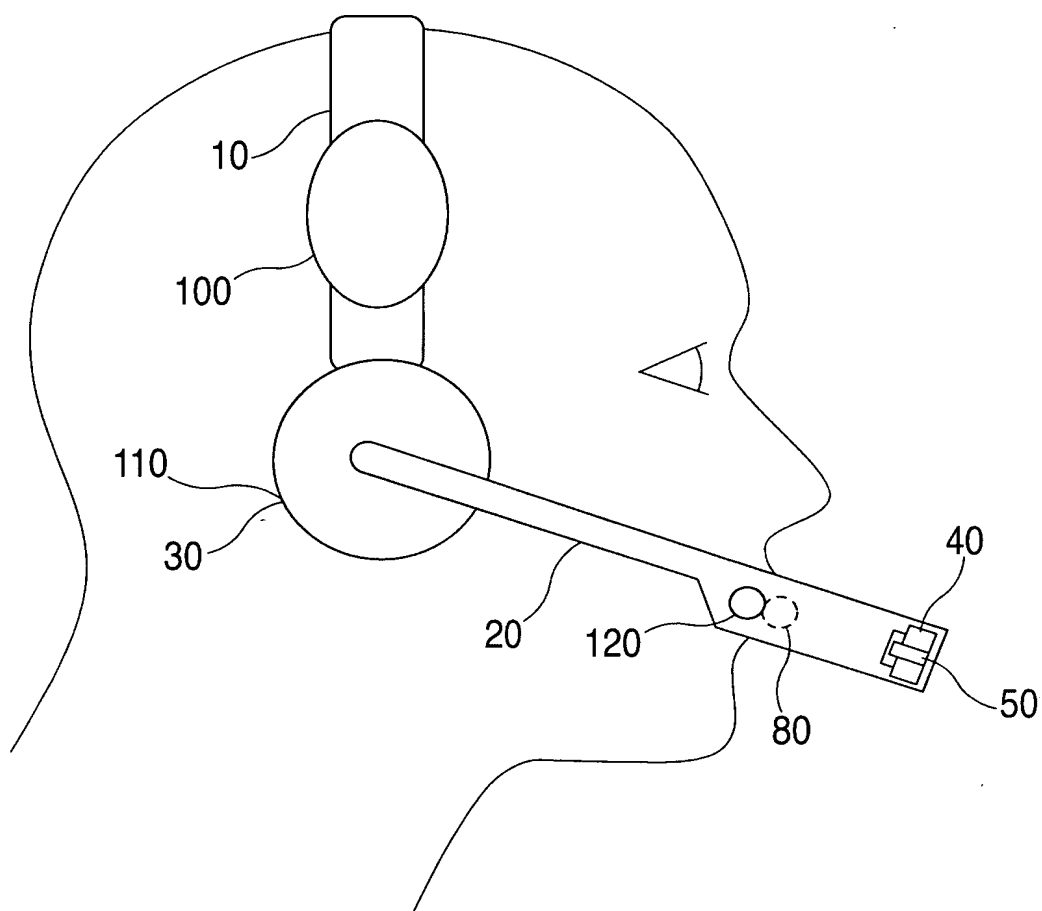

FIG. 3

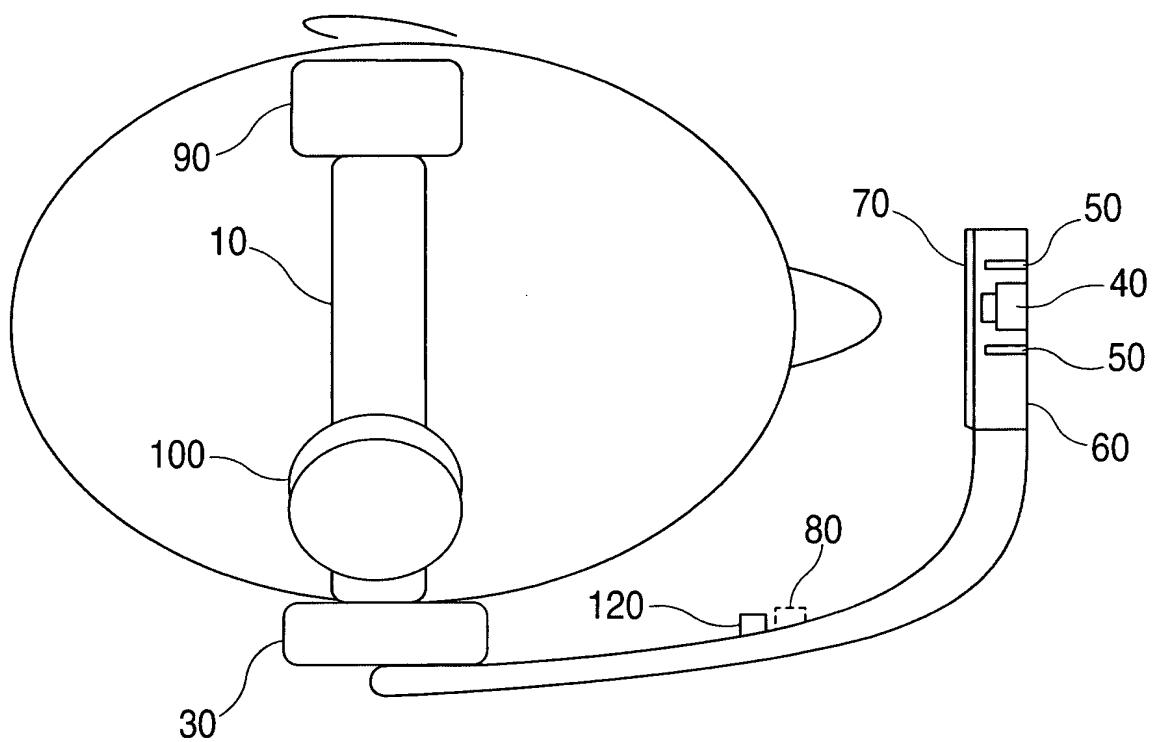

FIG. 4

A schematic diagram of a head-mounted display system. A head-mounted unit (10) is positioned on a user's head (20). The unit includes a display (30) and a camera (80). A cable (40) connects the head-mounted unit to a display unit (50). The display unit (50) is a long, narrow device that extends from the head-mounted unit towards the user's eye (180). The display unit (50) includes a display (150) and a camera (160). The display unit (50) is shown in a perspective view, indicating its length and orientation relative to the user's head.
